----- **End of commodity list** -----

This permit is granted subject to the requirement that fees determined under section 592(1) are paid.

Craig Scheibel
Delegate of the Director of Biosecurity

Date: 04 April 2017

Important information about this permit and the import of goods

Note: This permit covers Department of Agriculture and Water Resources biosecurity requirements. It is your responsibility to ensure all legal requirements relating to the goods described in this import permit are met. While you should rely on your own inquiries, the following information is provided to assist you in meeting your legal obligations in relation to the importation of the goods described in this import permit.

Authority to import

You are authorised to import the goods described in this import permit under the listed conditions.

Compliance with permit conditions and freedom from contamination

All imports may be subject to biosecurity inspection on arrival to determine compliance with the listed permit conditions and freedom from contamination. Imports not in compliance or not appropriately identified or packaged and labelled in accordance with the import conditions they represent may be subject to treatment, export or destruction at the importer's expense, or forfeited to the Commonwealth.

Compliance with other regulatory provisions

Additionally, all foods imported into Australia must comply with the provisions of the *Imported Food Control Act 1992*, and may be inspected and/or analysed against the requirements of the Australia New Zealand Food Standards Code.

All imports containing or derived from genetically modified material must comply with the *Gene Technology Act 2000*.

It is the importer's responsibility to identify and ensure they have complied with all requirements of any other regulatory organisations and advisory bodies prior to and after importation. Organisations include the Department of Immigration and Border Protection, the Department of Health, Therapeutic Goods Administration, Australian Pesticides and Veterinary Medicines Authority, the Department of the Environment, Food Standards Australia New Zealand and any state agencies such as Departments of Agriculture and Health and Environmental Protection authorities. Importers should note that this list is not exhaustive.

Change of import conditions

Import conditions are subject to change at the discretion of the Director of Biosecurity. This permit may be suspended or revoked without notice.

Notification of import

Notification of the import must be provided to the Department of Agriculture and Water Resources for all imported goods other than goods imported as accompanied baggage or goods imported via the mail and not prescribed under *the Customs Act 1901*. Notification must be consistent with the Biosecurity Regulation 2016.

Valid import permit

The importer must hold a valid import permit when the goods are presented for clearance.

The importer must verify that an import permit has been issued in relation to the consignment by one of the following means:

- i. The positive identification of the import permit to the Department of Agriculture and Water Resources at the time that the goods are being processed for biosecurity clearance, such as by presenting the import permit.

OR

- ii. Any form of physical, digital or verbal correspondence presented with information that allows an import permit to be identified.

Provision of required documentation

All required documentation must accompany each consignment. Alternatively, necessary documentation will need to be presented to the Department of Agriculture and Water Resources at the time of clearance. In order to facilitate clearance, airfreight or mail shipments should have all documentation securely attached to the outside of the package, and clearly marked "Attention Department of Agriculture and Water Resources". Documentation may include the import permit (or import permit number), government certification and invoice.

If the product description on the import permit varies from the identifying documentation provided for clearance, the importer is responsible for providing evidence to the biosecurity officer that the import permit covers the goods in the consignment.

Any documentation provided must comply with the Department of Agriculture and Water Resource's minimum documentation requirements policy.

Permit conditions

It is the importer's responsibility to ensure that the following permit conditions are met in relation to each consignment. Where more than one set of permit conditions is shown for a good please read each set of conditions to determine which applies to a specific consignment.

1. Baits and lures for non-aquatic use

This section contains permit conditions for the following commodity (or commodities):

1.	Bioremediation agents or baits, attractants, lures and poisons for agricultural and domestic use
	Product Description: Pestoff Rodent Bait 20R
	Pestoff Rodent Bait 20R non-toxic

1.1. Biosecurity Pathway

- a. These conditions allow for the import of the following products only:
 - Pestoff Rodent Bait 20R
 - Pestoff Rodent Bait 20R non-toxic
- b. Each consignment must meet all of the specified requirements.

To demonstrate compliance with this requirement you must present the following on a Manufacturer's declaration:

 - That the only materials of plant origin contained in this product are wheat wholemeal and apple paste from New Zealand, and highly refined plant extracts;
 - That this product contains no meat meal or meat and bone meal, or other material derived from animals, birds or fish;
 - That this product contains no whole seeds or viable plant material;
 - That the product has been packaged immediately in clean, new packaging on site at the production facility; and
 - That this product has been protected from post processing contamination.

The declaration must be provided by
Animal Control Products Limited,
408 Heads Road,
Whanganui 4501, New Zealand..
- c. **Post entry/end use conditions**
 1. This permit allows for the importation of baits, attractants, lures or poisons.
 2. The product is in a commercially prepared and packaged form (i.e. in a fully finished, retail ready form which negates the need for further processing and/or packaging prior to commercial sale to the end user).
 3. The product is for use as a pest control agent only.
 4. This import permit prohibits the goods to be distributed, sold or used for pet food, stock feed, aquaculture or fisheries purposes unless approved by the Department of Agriculture and Water Resources in writing for specific alternative uses.
- d. **Conditions of Administration**
 1. Documents must be provided with each consignment which:
 - 1.1. identify the consignment e.g. entry number
 - 1.2. identify all goods being imported as part of this consignment e.g. invoice or waybill

or importer's manifest

1.3. describe the goods being imported (where not clear). Example 1: Product XRab = Purified protein derived from rabbits. Example 2: Product AX = Synthetic antibiotic. Example 3: Comte = Cheese.

2. For further information please contact:

Regional - Clearance assistance:

<http://www.agriculture.gov.au/about/contactus/phone/regional>

Canberra - Administrative assistance or technical assistance: email

imports@agriculture.gov.au ([See Attachments](#)) or phone 1800 900 090

- e. Under the [Biosecurity Charges Imposition \(General\) Regulation 2016](#) and Chapter 9, Part 2 of the [Biosecurity Regulation 2016](#), fees are payable to the Department of Agriculture and Water Resources for all services. Detail on how the department applies fees and levies may be found in the [charging guidelines](#).
- f. Non-commodity information requirements for imported cargo also apply, please refer to the BICON case Non-Commodity Cargo Clearance.

Timber packaging, pallets or dunnage associated with the consignment may be subject to inspection and treatment on arrival, unless sufficient evidence of a Department of Agriculture and Water Resources approved treatment is provided.

All documentation presented to the department to assist in determining the level of biosecurity risk posed by transportation pathways and packaging must also meet the requirements of the non-commodity case.
